

Selective Service Verification

Student's Name: _____ SSN: _____

It was reported on your FAFSA that you failed to register for Selective Service. Please select one of the options below to explain your failure to register along with any supporting document listed in parenthesis:

I have registered for Selective Service (please attach confirmation from Selective Service that you are in fact registered).

I was born female and ineligible to register for Selective Service (please attach Birth Certificate to verify gender as assigned at birth).

I entered the country after the age of 25 and was not eligible to register for Selective Service (please submit proof that you entered the country for the first time past your 25th birthday. We can accept a US stamped VISA, I-94 form, or a Selective Service Status Letter. Any other documentation you submit to confirm date of entry may be rejected. If you cannot retrieve any of the three documents listed, please contact your school official).

I was incarcerated from the ages of 18-25. I was never at any point paroled or released from prison (if you were paroled or released from prison at any point during this time, you are not eligible to select this option).

I am an active member/veteran of the armed forces (please attach a copy of the DD214 long form that shows your Character of Service. We can accept this for any listing other than "Dishonorable").

I was born before the year 1960 and am not required to register for Selective Service (please attach Birth Certificate to confirm date of birth).

I believe that I have an exemption for not registering for Selective Service that is not listed in any of the options above (please submit signed/dated statement confirming what your exemption may be as well as any documentation that supports your exemption).

I was not exempt from registering for Selective Service. I was required to register, and did not and I am now past the age in which I can register. I certify that my not registering was not knowing or willful (please submit a detailed explanation as to exactly why you failed to register for Selective Service. If you have not registered and you are between the ages of 18-25, please contact Selective Service to register and submit proof of registration).
